PROGRAM PHILOSOPHY AND COURSE OBJECTIVES

The Soul of Yoga 200 Hour Yoga Teacher Training is about your own personal growth and evolution. This is about embodying the teachings rather than just learning intellectual information. Whether you want to teach yoga or not, we invite you to take a deeper dive into the understanding of this ancient science. It will impact your life forever, raising your consciousness and thereby raising the consciousness of the planet.

This training includes the major components of the various systems of yoga: principles for balanced living, right posture/alignment, pranayama and meditation practices, anatomy, and teaching methods. It is ideal for those seeking a thorough and complete understanding of yoga and its components in order to teach powerful and impactful classes as well as those seeking to embrace a deeper spiritual understanding of yoga.

Yoga teachers are being called to lead our communities through darkness to the light, to offer guidance, stress relief, and a much-needed practice of wellness. Do you feel ready to meet the calling of your community? It needs healing now more than ever before! At Soul of Yoga, we've seen the power of Yoga to facilitate personal and collective healing & the recovery process and we want to support you in being a leader in the wellness movement.
